

EZ-Rest® Capability Statement

Does your organization ever need temporary seating?

EZ-Rest® is the Answer!

EZ-Rest Retractable Folding Chair® provides easy to use seating, which is safe and secure for individuals in need of a quick rest. This new patented product is a self-retracting metal folding chair that mounts on any floor and wall and protrudes only 3 1/4 inch from the wall when not in use.

EZ-Rest Chair® provides a temporary “Rest Station” for anyone who needs a brief rest, including individuals with disabilities, seniors or with compromised health issues. The self-retracting chair attaches almost anywhere, yet remains out of the way until short-term seating is needed.

It fits in “oasis alcoves”, long hallways, areas of refuge, boats, changing rooms, and other small areas like dorm rooms, shower rooms, etc.

Our self-retracting chair is made of metal, is fire resistant and easy to clean. EZ-Rest® can be customized to meet the special needs of the facilities or location wherever it is installed. Assorted powder coat colors, heights, labeling, and engraving of specialized logos are available.

EZ-Rest® is proudly manufactured in the United States in the state of Idaho.

How and Why?

EZ-Rest, Inc, a certified woman-owned small business is both the manufacturing and distribution company. We are dedicated to expanding access for individuals in need of a brief rest by providing “Rest Stations” throughout the community.

Who?

Bonnie Breit is an Occupational Therapist and hospital administrator with over 30 years of experience who conceived this safety product after observing people in need. Ms. Breit manages all of the administrative aspects of the business. In addition, Thomas Moore, a veteran of the Korean Conflict is responsible for the operations and manufacturing quality control.
